

MERLOT

It is a great wine, full bodied of rich colour, characterized by an intense wine perfume with shaded grassy flavour. The colour is ruby red that, with maturation, turns into garnet. Aging this wine improves significantly his characteristics and achieves a pleasant bouquet and assumes a dry flavour, very harmonious and balanced. For its harmonic completeness lay on the table throughout the meal, it finds easy matches with cold cuts, stews, roasts and poultry. Serve at a temperature of 18° C.
